

ROLL UP BANNER STAND 33.5 x 78

Keep Live Content (words and graphics that you want to be visible) inside the Yellow area.

Bleed Background to the Edge of the Red box.

Please convert ALL type elements to outlines using the "Create Outlines" option in the TYPE menu.

Bitmap or Scanned Objects should have at least 85 pixels per inch (dpi) resolution at the size they are placed in this document. Resolutions below this level will become blurry and/or pixelated.

Our digital printers use quasi-CMYK inks optimized for banner printing. If you specify PANTONE formula spot colors please understand that some of these colors cannot be reproduced. We use sophisticated color management software that will try to get as close as possible within the color gamut of our printers, but the color will not match the Pantone formula guide book. If color is critical to your job, you will need to purchase a sample print of your artwork for color approval. Please contact your customer service representative for more details.
