

3' x 5' Pennant Flag Template

Live Area

Keep crucial graphics and text within this area.

Print Area

Take all flag art to the edge of this area.

How to use this template:

The "Instructions" layer can be discarded, after being read and understood.

Create your flag graphics on the "Art" layer, extending all background art and colors to the edge of the solid line (the Print Area).

Keep important graphics within the dashed line (the Live Area) to ensure that they will not be sewn through when the flag is hemmed.

The guide line shows the finished flag edge.

Convert all text to outlines

Convert spot colors to cmyk

Any embedded bitmap images should have a resolution of 85–100 pixels per inch (ppi/dpi) at the size they are placed into this document.
